

MIGHTX7

WHITE PAPER v1.2

Web3 Project by Chikara Co., Ltd., Japan

Prepared for international project development and exchange due diligence — September 2026

Project: MIGHTX7

Company: Chikara Co., Ltd., Japan

Blockchain: BNB Smart Chain

Standard: BEP-20

Contract: 0xc02B3EE1237e4bF485bE9D1dA12e815fcDa54687

Planned processing capacity: up to 50 tons per day

Document status: Final version for exchange due diligence

1. Executive Summary

MIGHTX7 is a Web3 project developed by Chikara Co., Ltd., Japan. The project is built on BNB Smart Chain and is intended to develop an international digital ecosystem connected with real-world business development in seafood processing, resource circulation and utilization of fish-processing by-products.

2. Company

Chikara Co., Ltd. is a Japanese company involved in seafood-related business and is developing additional projects focused on resource circulation and the utilization of fish-processing by-products. One planned industrial direction is the processing of fish by-products into fishmeal and fish oil.

3. Token Information

Token: MIGHTX7

Blockchain: BNB Smart Chain

Standard: BEP-20

Total Supply: 1,000,000,000 MIGHTX7

Official contract address: 0xc02B3EE1237e4bF485bE9D1dA12e815fcDa54687

4. Project Concept

MIGHTX7 is designed around three connected areas: Web3 technology and community development; real-world business development through Chikara; and resource circulation through the planned utilization of seafood-processing by-products.

5. Real-World Development

Chikara is developing a fish by-product processing project intended to produce fishmeal and fish oil, with planned processing capacity of up to 50 tons per day. The broader objective is to reduce industrial waste, recover useful resources and develop additional value chains connected with the seafood industry.

6. Token Utility

Potential utility may include participation in the MIGHTX7 ecosystem, access to future ecosystem functions and services, community activities, Web3 features and selected project initiatives. MIGHTX7 does not represent shares in Chikara Co., Ltd. and does not by itself grant ownership of the company or a guaranteed entitlement to company profits.

7. Tokenomics

Allocation	Tokens	Share
Project Founder Allocation	500,000,000	50%
Public Sale	300,000,000	30%
Community / Gifts	50,000,000	5%
Chikara Founder Allocation	150,000,000	15%
TOTAL	1,000,000,000	100%

Public Sale Structure

Phase	Tokens	Price	Maximum Proceeds
1	50,000,000	¥0.40	¥20,000,000
2	50,000,000	¥0.40	¥20,000,000
3	50,000,000	¥0.40	¥20,000,000
4	50,000,000	¥0.40	¥20,000,000
5	50,000,000	¥0.40	¥20,000,000

6	50,000,000	¥0.40	¥20,000,000
TOTAL	300,000,000	¥0.40	¥120,000,000

Public Sale Conditions

Phase 1 purchase limits: minimum ¥500 (1,250 MIGHTX7) and maximum ¥100,000 (250,000 MIGHTX7) at ¥0.40 per token.

Subsequent phase timing and activation conditions will be announced separately and may be modified subject to legal, exchange, market and operational requirements.

The public sale structure above describes the project's planned structure. It does not represent a statement that a public token sale is currently active.

8. Roadmap

Phase 1 — Foundation: token creation, BNB Smart Chain deployment, Chikara integration, website and documentation.

Phase 2 — Preparation: White Paper, tokenomics, contract verification/security review, website, community channels and compliance preparation.

Phase 3 — International Market Preparation: exchange applications, liquidity planning, international community and jurisdiction controls.

Phase 4 — Exchange Expansion: pursue suitable international exchange listings and MIGHTX7/USDT market access where approved.

Phase 5 — Ecosystem Expansion: further Web3 functions, partnerships and integration with real-world business development.

9. Japan Market Restriction

MIGHTX7 is intended for an international market. The project will not intentionally offer or actively promote the public sale of MIGHTX7 to residents of Japan. Appropriate geographic, eligibility and jurisdictional restrictions will be implemented based on applicable law, legal advice and exchange requirements.

10. Risk Disclosure

Digital assets involve substantial risks, including volatility, loss of capital, smart-contract vulnerabilities, liquidity risk, cybersecurity risk, regulatory changes, exchange listing risk and project execution risk. No return or future token value is guaranteed. Listing on any particular exchange is not guaranteed.

11. Disclaimer

This White Paper describes the project as of September 2026 and may be amended. It is not investment advice, a guarantee of profit, or a representation that MIGHTX7 is legally offered in every jurisdiction. Before public distribution, the project will comply with applicable legal, exchange and KYC/AML requirements.
